

# Shuttle®

**XX**  
Vision X50

## Your vision is just a touch away

It's something you want in the house, workplace, public area and more! The Shuttle X50 is a device for anyone, anywhere and anytime. Integrating state-of-the-art touch and small form technology, the X50 offers intuitive interface that empowers both novices and professionals. The 15.6 inch all-in-one PC combines all applications in a single device and starts up quickly by touching the screen. An easy carry handle and mount on the rear allows versatile application of the system in different work settings just by plug-and-play. You're sure in for a surprise with its slim and chic design as well as its easy and fun interface.
