Intel® Celeron® Dual-Core Processor

The X50V5 supports the latest Intel® Skylake-U platform technology. It is equipped with an Intel® Celeron® 3855U 1.6Ghz dual-core processor with a max TDP of 15W, memory frequency support for up to DDR3L-1600, and built-in Intel® HD Graphics to play Full HD/1080P content.

IP54 Design

The X50V5 front panel is IP54 certified for dust and splash water resistance. It can be used for those indoor applications, where the touch screen may be exposed to humidity and occasional splashing of water.

Supports Three Independent Displays

The rear panel of X50V5 provides HDMI and D-sub video outputs, that can be connected to the other two monitors to support three independent displays. Use an adapter to convert HDMI into DVI for diversified signal selection.

Supports Wire and Wireless High Speed Networks

The X50V5 has one built-in Intel® Gigabit LAN interface and Realtek RTL 8821AE ac/b/g/n and BT combo wireless network card. Transmission rates reach up to 433.3 Mbps for significantly enhanced data transfer efficiency and operation speeds. It also supports Wake On LAN function so that users can turn on the X50V5 from the sleep mode, rest mode, or when powered off via the internet.
